SUMMARY

Highly curious in exploring the new technologies with having sound knowledge in Java. Strong knowledge of HTML/CSS and JavaScript. Proficient in SQL and Git. Proven ability to work in a fast-paced environment with high-quality standards and strict deadlines.

PROJECTS

Developed a weather web app with API integration.

- Technologies used: HTML, CSS, and JavaScript
- Utilized rapidAPI to track live weather reports for various locations.

Created a Netflix Landing Page

- Technologies used: HTML, CSS & JavaScript
- Utilized properties like shadow, overlays, grid, flex to mimic the Netflix landing page.

Built an interactive TO-DO list web app

- Technologies used: HTML, CSS, and JavaScript.
- Enhanced interactivity with JavaScript, allowing task addition and deletion.

Slice of Spice

- Designed and implemented a Restaurant Management System software.
- Simplified restaurant operations, including inventory tracking, chef and customer management, and online order management.

Simon Says Game

- Built using HTML, CSS and JavaScript.
- The game displays sequence using four illuminated buttons.

Designed a music application clone

Spotify Clone

- Technologies used: HTML & CSS.
- Attempted to recreate the Spotify user interface as it appears when opening the web app.
- Implemented viewport property, making the web app responsive as properties adjust with screen size changes.
